## MAYFIELD WOOLEN MILLS BURN

WAREHOUSE OF MAYFIELD PLANT DESTROYED WITH HEAVY LOSS.

LOSS ABOUT \$350,000 COVERED BY INSURANCE

STARTED IN STOREROOM FROM UNKNOWN CAUSE—BURNED SIX HOURS

The Louisville Plant Employed Five Hundred People—Many Fire Chiefs Witness Fire.

Louisville, Ky., Oct. 6.—Fire in the woolen mills, 1409-1498 Story avenue, which burned from 2 to 8 o'clock this morning, did damage which J. D. Simpson, the secretary of the company, estimates at \$350,000. It is covered by insurance.

The loss is almost entirely on finished garments. The mill takes raw wool and converts it into the finished article of wear, being one of the largest manufacturing of clothing in this part of the country.

This stock was stored in the large warehouse, which comprises 1490-1492 Story avenue, two stories above ground, two below and a sub cellar, making it practically a five-story building.

Four floors of it were packed with goods, Mr. Simpson says the total value was \$450,000. A large part of it was entirely destroyed and the rest was damaged by smoke and water. He estimates it as 75 per cent loss.

The loss on the building will not be more than \$10,000.

Origin Is Not Known.

The fire was discovered at 2 o'clock this morning by Alex Freeman, the night watchman. How it started could not be determined, as the smoke was so dense that Freeman could not enter the place. An automatic alarm was turned in and a general alarm sent practically all the fire-fighting force of the city to the scene.

The firemen were hampered in their work by the smoke, which was so dense and overpowering as to make entering the building out of the question. All they could do was to surround the warehouse and concentrate a deluge of water on it until the fire was extinguished.

Employees on the Scene.

Close to the mill live probably 200 people who were employed there. These were awakened and hastened to the fire, fearful that their source of livelihood was to be destroyed. Mr. Charles H. Norman, cashier of the company, who lives in Waverly court, was also early on the spot, as were Mr. Simpson and Mr. A. D. Hudspeth, the superintendent.

Many Fire Chiefs There.

While the fire burned a long time and was unusually stubborn, it was lacking in spectacular features. It soon resolved itself into a question of how long it would take to wear it out.

The mills employ between 400 and 500 people and have fifty salesmen on the road. The officers say that, while there will probably be a slight suspension, they do not believe the fire will cause any serious interruption of business.

A number of fire chiefs from all parts of the country were in the city to take the special train for Dallas, where the National Association of Fire Chiefs will meet this afternoon. When they found there was a big fire in progress, they hastened to the scene and watched the fight the Louisville firemen made. Among the chiefs here were Chief John Thompson, of Toronto; Chief Robert Kierstead of Newark; Chief Wharty, of Cincinnati; Chief Jesse, of Lexington; Chief (Wahl), of Covington, Tenn.; Chief Sullivan of Memphis; Chief Dunlevy, of Evansville and others.

## TWENTY-FIVE APPLICATIONS

LARGE NUMBER OF PEOPLE DESIRING TO LOOK AFTER PATROL.

Chief James Woods Left Last Evening for Dallas, Texas, to Attend Chief's Convention.

There are about twenty-five applications in before the board of police and fire commissioners for the position of driver of the patrol wagon, and from among this list an occupant for this place will be picked during the meeting of the commissioners tomorrow night at the general assembly chamber. The place was made vacant by the resignation several weeks ago of John Austin, who held the position for a period of five years. Since his resignation, the wagon has been temporarily looked after by Mr. Henry Skamon, until some regular man can be chosen.

Commissioner John Bonds, of the police board, returned yesterday morning from Louisville where he has been for the past few days attending the horse show and transacting business.

Chief James Woods, of the fire department, left last evening for Dallas, Texas, to attend the annual gathering of the Fire Chief's Association. He was granted a leave of absence by the commissioners two weeks ago, and during his sojourn there the department here will be looked after by Captain Jake Elliott of the Tenth and Jones streets branch station house.

HAVE NOT LEFT.

Dr. Rivers Cannot Leave on Account of Illness of Father-in-Law.

Dr. Robert Rivers is in the city from Smithland on business and attending the horse show. Dr. Rivers intended leaving for Ardmore, Indian Territory a week or two ago, but his father-in-law, Captain J. W. Bush of Smithland was dangerously ill and this prevented the doctor's departure. As soon as the condition of the captain is one of safety, Dr. Rivers and wife depart for their new home. Mr. Bush was much better yesterday. He was near death's door for a week or so with heart trouble.

AGED LADY DIED.

Mrs. Mary Herndon Passed Away of General Debility—Dr. Mullins' Body Shipped.

Mrs. Mary Herndon died of old age at the home of her son, Mr. John Herndon, of near Colliersville. The deceased passed away Friday night at the age of seventy years. The remains were buried yesterday afternoon at the Whittemore cemetery. She is survived by three sons and one daughter.

The remains of Dr. W. S. Mullins were shipped yesterday morning at 9:30 o'clock to Paris, Ill., for burial, the body being taken by way of Cairo, and accompanied by his son.

APPEAL TO DIAZ.

Will Be Made by American Life Insurance Swindlers, Sentenced to Death in Mexico.

El Paso, Tex., Oct. 6.—Richardson, Mason and Harle, the three Americans sentenced to be shot at Chihuahua for murdering victims to collect life insurance, will appeal to President Diaz for executive clemency and will be given time to hear from him. The date of their execution is not known.

Executions in Mexico are always kept secret, no date being announced. The officer commanding the guard receives a sealed envelope, to be opened at a certain date, and in this envelope he finds directions as to the execution of the prisoners named within.

To Name Labor Candidates.

Lexington, Ky., Oct. 6.—The Central Labor Council held a meeting last night and decided to name candidates for councilmen, aldermen and members of the board of education. A mass meeting will be held Monday night, when candidates will be chosen. A. Babits, secretary of the council, said last night that the movement was purely local, and the national labor organization will take no part in the election.

## NEW CONTRACT TO BE MADE WITH WATER COMPANY

WATER COMMITTEE FROM CITY LEGISLATIVE BODIES WILL MEET TOMORROW WITH SUPERINTENDENT BURNETT, OF THE PLANT, AND ENTER UPON THE NEW AGREEMENTS BINDING FOR EIGHTEEN YEARS TO COME.

For several days the water committee of the councilmanic and aldermanic boards have been holding formal meetings with Superintendent Muscoe Burnett of the plant, and enter upon the new agreements binding for eighteen years to come.

In 1884 the water company was organized by private citizens, and a forty-year franchise gotten from the municipal government. At that time the water concern made a twenty-year contract with the city authorities, agreeing to supply the municipal government with water for the fire hydrants. As it took two years to build the water plant, this twenty-year contract went over from the date of its originally intended expiration, 1904, to this year in order that the city could get the full twenty years. When the plant was first started twenty years ago, its contract with the city was to charge \$40 per year to supply water to the first 150 fire hydrants installed in 1884, \$30 per year for the next 30 new hydrants put in, and \$25 per year for all those installed thereafter.

This twenty-year contract having expired, the public boards have directed the city water committee to arrange for renewing the agreement for the coming eighteen years, which is the remainder of the life of the forty-year franchise granted the company in 1884. The city now has 411 fire hydrants, and the water committee, after figuring over the matter, has offered to enter into a new contract for the coming eighteen years and pay the water company \$20 per year on every plug for the next ten years and \$15 annually on every plug from the last eight years of the company's franchise. The water company is now considering this proposition, and although they have not yet decided whether to accept it, the probabilities are a new contract will be entered in on this basis during tomorrow's meeting between the city committee and Superintendent Muscoe Burnett.

Mr. Burnett yesterday said he had figured over the price offered by the city for this new contract, and it showed that the municipal government would save \$4,455 annually for the first ten years and \$6,510 annually for the remaining eight years, if the water company accepts the proposition, which it is inclined to do. By his figures he calculates that for the coming eighteen years the city will save a total of \$96,630.00, as compared with what the municipal government has been paying the water concern during the past twenty years.

This new contract to be entered in to does not in anyway effect the company's franchise, neither does it interfere with the city's right to buy the plant at the end of every five years, by arbitration, if the municipality so desires.

## MUNICIPAL OWNERSHIP TICKET UP FOR ELECTION

CANDIDATES FOR ALDERMEN AND COUNCILMEN WILL MAKE THE RACE UPON A PLATFORM WHICH ADVOCATES OWNERSHIP BY THE CITY GOVERNMENT OF THE WATER AND LIGHT PLANTS.

There will be a "Municipal Ownership" ticket in the field for city offices at the coming general election, as evidenced by the petition filed yesterday with the county clerk by those heading the movement, requesting the clerk to put on the election ballot the names of candidates for aldermen and councilmen who will run on the municipal ownership platform. The document filed with the clerk shows that the following are the candidates.

For aldermen—John G. Miller the attorney, George Rouse the grocer of 439 North Fourth, and William A. Lawrence of 211 Kentucky avenue.

For councilmen—B. B. Breeden, the Ninth and Trimble street druggist, from the first ward; Christ Miller, the sheet iron and tin contractor of 632 North Sixth street, from the second ward; J. C. Jones, the well known lumber inspector for Langstaff-Orm, who resides at 406 South Fourth street, from the third ward; John A. Cole, the contractor of 1220 Tennessee street from the fourth ward, and Henry F. Magee, of 141 Clements street from the sixth ward. The latter is the well known foreman for the Mergenthaler-Horton basket factory in Mechanicsburg.

The law requires that if any candidates outside the Republican and Democratic nominees, desire to enter the election, a petition signed by at least twenty people shall be filed with the county clerk, requesting that the names of the aspirants be put on the ballot. Very easily more than the required number of petitioners were procured, and now the clerk has to enter these candidates up along with the others. The head of that portion of the ballot under which these candidates names will appear will show they are "Municipal Ownership" league aspirants, while the device will be a pair of scales suspended by a hand, signifying a desire to equally balance justice to all.

All the candidates under this head are the best known people of the city and will receive the full support of everybody who desires that the city own the water, and electric lighting plants, as this is their advocacy and platform.

Indianapolis, Ind., Oct. 6.—David Hecht, of Evansville member of the state board of pharmacy, was arrested tonight on a charge of soliciting a bribe. Prior to the last examination of druggists for state licenses there was reason to believe that a leak had occurred somewhere and it was determined to investigate by getting a druggist to correspond with certain members. A druggist named Porter, of Winchester, wrote to Hecht saying that he had failed to get a license and unless he succeeded in doing so at the subsequent examination he would be compelled to hire a prescription clerk. Hecht answered the letter inviting Porter to come to Evansville.

Porter replied that he could not conveniently do so and the correspondence was continued till, it is alleged, Hecht offered to seal the list of questions for the next examination for \$120, saying if the money was sent him, the list would be sent by return mail. The correspondence was laid before Gov. Manly and he communicated at once with the prosecutor of Randolph county and Hecht was indicted.

# THE WEEK IN SOCIETY..

## Georgious Ball.

The most brilliant event society has enjoyed for many years was the gorgeous ball given Friday evening at the Elks' home on North Fifth street, complimentary to the horse show sponsors when in the city. The affair was attended by several hundred people and was very well in its entire arrangements. This was the first social event in the new home that has only recently been completed and thrown open for the benefit of its members and friends. The furnishings are gems of elegance, and the added brilliancy of this particular occasion made the building a glittering scene of attraction.

Mrs. Thomas Leech had charge of the punch bowl and Mrs. J. Campbell Flournoy the tea table, both being in the reception rooms that were alike in decorations to the ball room, the hues being horse show colors, of red yellow and blue. At 10:30 o'clock the grand march started, led by Mr. Robert B. Phillips and Mrs. Thomas C. Leech. Over one hundred couples took part and it was a handsome line of march. Several dances then came, and were followed with a four-figure cotillon, the favors for which were bracelets, caps, crops, toy horses, whips, spurs, mirrors and yellow and red chrysanthemum pin cushions. The favor table was under charge of Mrs. George C. Wallace and Miss Anna Webb.

The dance did not break up until 2 o'clock yesterday morning, its brilliancy and attractiveness holding the crowd to the latest hour. Those in the receiving line were: Mr. and Mrs. Robert Becker Phillips, Mr. and Mrs. Thomas C. Leech, Mr. and Mrs. Jacob Wallerstein, Mr. and Mrs. Joseph L. Friedman, Mr. and Mrs. Henry Rudy, Mr. and Mrs. John S. Bleeker, Dr. and Mrs. Victor Voris, Mrs. Bertie Campbell and Mr. S. A. One of the most elegant and cultured of young ladies is the bride, who is endowed with every trait characteristic of the famed girls of Kentucky. She is unusually beautiful, of a jovial, enlivening disposition and blessed with a high intellectuality for which the Corbett family is famous in this state. As a society girl she is the leader of her circle, and has been the center of much admiration and attention ever since making her debut several years ago. She is as prominent in the state capitol and eastern part of Kentucky as here, as for a number of years Frankfort was her home while her late father, Hon. Thomas Corbett, was connected with the state administration. She is one of the favored fair ones of this city, and no fashionable social event is complete without her attendance.

No business man stands higher, or is there recognized in anyone more integrity than in the groom, who is proprietor of the Racket store, which has amassed a patronage second to none in this city under his able guidance since opening here some years ago. The wedding details will be announced later.

Immediately after the ceremony, the newly-wedded pair will leave for an extended trip west, to be gone about two weeks, and upon their return will make their home in Paducah."

# Cuts the Fuel Bill in Half For Soft Coal, Lignite or Hard Coal

As you know fully one-half the carbon available for heat in soft coal is gas, the entire gas supply used for fuel and illumination in many cities and towns being made from common soft coal. The ordinary stove in burning soft coal allows this gas half of the fuel to pass up the chimney unburned, thus wasting it as a heat producer.

Cole's Original Hot Blast Stove, by means of the patented Hot Blast draft and other patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon or coke in the coal, thus burning all the coal. This is why

# Cole's Original Hot Blast

Saves the Dollars and makes a ton of common \$3.00 soft coal or lignite do the work of \$9.00 worth of hard coal.

Your old stove and imitation Hot Blast are not air tight, do not save the escaping gases and do not give you a warm house at night. You cannot afford to say to yourself "My old stove will have to do this winter." The old stove is eating up the price of a new stove every year. Not only that, but on top of the cost is the unsatisfactory result it gives. It is always out the coldest morning.

## Even Heat Day and Night—Fire Never Out

Cole's Hot Blast is so perfect in construction that fire keeps all night, and when the draft is opened in the morning will burn two or three hours with the fuel put in the night before. No other stove does this. Fire, therefore, never goes out, and the rooms are kept at an even temperature all the time.

## OUR GUARANTEE

- 1—We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal or slack.
- 2—We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any heat burner made with same heating surface.
- 3—We guarantee that the rooms can be heated from one to two hours each morning, with the soft coal or hard coal put in the stove the evening before.
- 4—We guarantee that the stove will hold fire with soft coal 36 hours without attention.
- 5—We guarantee a uniform heat day and night, with soft coal, hard coal or lignite.
- 6—We guarantee every stove to remain absolutely air tight as long as used.
- 7—We guarantee the feed door to be smoke and dust proof.

The above guarantee is made with the understanding that the stove be operated according to directions, and set up with a good fue.

## For Hard Coal—Saves Half

The perfect control over the drafts, the slow economical combustion and the large positive radiating surface make Cole's Original Hot Blast the most economical and the best Hard Coal stove made.

Cole's Hot Blast is the modern heater and will save its cost in fuel every winter. Buy one for your home now.

Shows Stove Burning SOFT COAL

## Would You Lose \$50.00 in Fuel to Save \$1.00 on the Cost of Your Stove?

That is what you do when you buy a cheaply constructed, putty jointed, showy made imitation stove. Like all successful inventions, Cole's Original Hot Blast has many inferior imitations, avoid them. They all lack the patented features and careful construction, which make the Original Hot Blast a great success. They do not stay tight and soon open seams and cracks which render them worthless as fire keepers. See the name "Cole's Hot Blast from Chicago" on the feed door. None genuine without it.

## Our Duty As Citizens.

As election day approaches it would be well for each and every citizen of Paducah to indulge in sober thought and serious reflection. Especially should be considered the responsibilities resting upon him both towards himself and to his fellow citizens. Let him bear in mind that Paducah contains nearly 30,000 people, and that he is one of that number. Being an American citizen understands the peer of any man on the face of the earth. An honest American citizen stands on the highest plane ever reached by mankind. Wealth or position cuts no figure at the ballot box. Being an honest citizen means that all such must be honest when they deposit the ballot. A man cannot cast an honest vote, except he follow his convictions.

Political parties are but the creatures of men, and designed for the association of those who believe and endorse certain tenets or rules of government. Such persons when associated together will naturally seek each others welfare, equally with their own. Unfortunately for a republican form of government, in late years, what is termed political parties, have been used as vehicles for selfish ambitions or manipulated in the interest of a favored few to such an extent, that the masses can no longer rely upon them to stand for the public good. They have degenerated into barter and sale, strictly in quest of the dollar.

In this country politics is purely a combat between the people and the few who would dominate public affairs in their own interest or that of men who have designs upon the public. So flagrant has the conduct of the two great parties in this particular become, that thousands each year are severing all party ties and renouncing allegiance to parties. They stand out as independent American citizens and refuse to longer suffer themselves to be used by politicians or the "interests" behind that class.

If the reader will but pause for a moment he will see but little difference if any between the two parties on national affairs, and that difference is but on the question of the tariff. When it comes down to the state or the city no difference whatever exists between them. The people are no better off under one party than they are under the other. The assessor makes his rounds followed by the tax collector and the money is either judiciously spent or thrown away as the case may be, so in the end it makes but little difference to the taxpayer which party may be in power. Honest men and rascals are in both parties. Corporate interests stand close to both parties. When we reach the cities, there is no such thing as a political question involved in any election. Every citizen is familiar with conditions and he does not need the services of a party or its leaders to point out to him his duty in the premises.

Is there a voter in Paducah who feels that he must have a politician to point out the way for him? We think not.

There are certain local questions before the people of this city, but those questions resolve themselves into one great question, and that is, the interest of the people as a whole.

There will be no field for representatives in the general council. In a city of this size it will not be difficult for the people to ascertain just where each and every one of the candidates stand on matters that affect the public welfare. Every voter in the city will have the opportunity to register his choice, and the sensible man will vote to better his interests.

The time has arrived when the people must do some serious thinking. Paducah must either go forward or backward. If the people rule and our affairs are administered with an eye single to the greatest good to the greatest number, the city will go forward; But if the corporations and other interests are to dominate its affairs as they have in the past few years, the city will go backward. Paducah can be made a good clean moral city, and whether or not it is to be such, rests largely with the men to be elected next month. Where men have filled public positions they must be judged by their records as such, and not by promises. The people have the right to know where every candidate stands on every question, and they should exercise their right to force him to a show down. Men are very apt to make all kinds of promises, and when once elected to turn on the very people who elected them and sneer at them.

Hundreds of good citizens got a dose of that kind of treatment this year from several men now in the general council and the voters should see to it that such men are retired.

The corporations have dominated the general council for ten years past and it is time for the people to get together and put men in the general council who will represent the people. This can be done if every voter will make up his mind to go to the polls in November and vote his honest convictions.

## The "Disaster" Howlers.

The corporations, the trusts and the franchise grabbers realize that they are up against it in New York and the old howl about the country being in danger of ruin, if Hearst is elected, is being raised again. At the opening of the republican state campaign Lieutenant Governor Bruce in the course of an address said: "If the forces arrayed against us can carry this great empire state the educational, financial and manufacturing center of the country it will light a fire which will sweep from Maine to California."

In our humble opinion what this country needs is a purging by the fires of good government. A fire that will smoke from their holes all men who have trafficked in legislation and through corrupt means been enabled to amass great fortunes at the expense of the people, either by railroad grants, franchise grabbing or the formation of trusts by reason of the robber tariff, and thereby filched from the people valuable lands, franchises and enormous profits.

Strange as it may seem, yet it is true, in this great republic favored few thousands have been enabled to levy tribute upon the millions. We do not arraign any man for the wealth he may acquire through honest means, for such a man is a blessing to mankind, but we do arraign the men who by dishonest methods have millions of dollars in their possessions. If by a combination with their fellows, they were enabled to hold up the public, or to exact from it more than what was just and right, they are not one whit better than common thieves.

If, as stated by the speaker quoted, the election of Hearst will light a fire which will sweep from Maine to California, we believe the people of this great country will survive and live through it all. How do we know this? By simply observing what they have stood at the hands of the men who have been plundering the nation, the state and the cities for the past ten years.

## The Independent Ticket.

An independent ticket for aldermen and councilmen has been placed in the field, and the public may now expect the corporations, their organs and their political manipulators to get up on their hind feet and howl. As that whole bunch is on record as being against the people, what ever they may say about a third ticket, should have no weight.

This is a free country and men have the right to offer for office, on any ticket they may choose, and the people have the right to vote for whom they please.

From what we have learned, a number of citizens who believe in municipal ownership of public utilities determined to put out a ticket because they felt that both the democrats and republicans had been tried on the question, and had allied themselves with the corporate interests.

About a year ago a petition was circulated in this city and signed by

but those interested in the matter were given to understand that men on the republican ticket were favorable to municipal ownership and as a consequence no further steps were taken to organize the league. The republicans were elected by the votes of some of the advocates of municipal ownership, and when a petition for a vote on the city issuing bonds for the purpose of owning an electric light and water plant was presented to the general council, those very men refused to even grant the people the privilege of expressing themselves. This settled the question of expecting any consideration from that party, and when the democrats nominated a ticket a few weeks ago the car marks of the corporations and certain banks were as plain as day, so at this late day a third ticket is put in the field and a vigorous campaign is to follow, so it is claimed.

There is no doubt about a majority of the people of Paducah being in favor of the city owning a water and light plant, and a strong fight will be put up for the election of the Municipal Ownership ticket. If every advocate of public ownership will pull of his coat and do a little work the corporation gang will be surprised at the result.

The fight is on between the corporations and the people in this city. It had to come and it just as well start now as later on. Whatever the result may be, it means that the fight will be carried on next year, as well, at which time the general city election occurs. All that has been needed in Paducah is for some one to make the start, and from what we understand, men who have never been in politics are behind the movement, and they propose to give the public a campaign of education by placing before the people statistics bearing on the experience of cities that own their water and light plants.

The consumers of this city are paying too much for water and lights and their only relief is through competition or municipal ownership. The corporations have too good a thing to turn loose without a strong fight, and if every man who believes in public ownership will take an active part in the campaign the voters of Paducah will soon have the privilege of voting on the question.

## DISCOVERS THE "AIR" THE PLANETS FLOAT IN

Electron, the New Element, Expected to Clear up Scientific Mysteries.

Washington, Oct. 5.—Consul R. S. E. Bergh of Gothenburg reports the discovery by a Swedish scientist, J. R. Rydberg, professor at Lund, Sweden, of a new element, electron. Electron is a universal gas and forms an atmosphere which prevails through out our solar system. It is expected that the discovery will lead to full scientific explanations of many things which up to date have remained doubtful or unexplained, as, for instance, magnetic storms in connection with the sun spot periods, the northern lights, terrestrial magnetism etc.

## BLIND SCHOOL PUPILS IN LOUISVILLE PLAY FOOTBALL

Louisville, Ky., Oct. 6.—The most remarkable football team in the world began its season this morning. They are the team of the Kentucky Institution for the Blind. Many of the players are stone blind and none of them has more than most imperfect vision. Notwithstanding this the blind boys last season met all the teams of the city of their weight and made a wonderful showing.

They play the straight game with only such concessions as their infirmity necessitates. Last year they required a round ball, because the erratic bounding of the oval was considered too great a handicap, but this year they will play with the oval.

The first opponents will be the Manual Freshmen. Last season the blind team played the Manuals to a standstill, neither scoring. This year they hope to beat them.

Football players at the blind asylum were so numerous this season that they have organized a second team.

RACE FOR THE VANDERBILT CUP MARKED BY INJURIES AND ACCIDENTS.

## WAGNER THE FRENCHMAN PROVES THE WINNER

ONE CAR HURLED OVER EMBANKMENT AND OCCUPANTS UNCONSCIOUS.

Boy in Crowd Is So Badly Crushed He Will Die—Another Spectator Unconscious.

Finish Line Vanderbilt Cup Race Course, Oct. 6.—The International Vanderbilt Cup Race was won by Wagner, the Frenchman, with Lancia, the Italian, second.

Finish Line, Vanderbilt Cup Course Oct. 6.—Fog delayed the start of the third international automobile race for the Vanderbilt cup for fifteen minutes today. At 6:15 a. m. the order was given and Car No. 1, driven by LeBlon, American, went over the line. He was followed at intervals of one minute by the other racers. The race was run over a course 29.71 miles in length, laid out over the macadam roads of Long Island. Seventeen cars, representing America, France, Italy and Germany, started in the race, which was 29.71 miles, or ten times around the course.

## First Serious Accident.

The first serious accident occurred today when the racing car, driven by Dr. Wellschott, the Italian chauffeur, went off the road almost at the point where Mongini was thrown in the recent elimination race. While taking the Manhasset hill at a terrific pace Dr. Wellschott suddenly discovered that he could not control the machine at a curve a short distance ahead. He shouted to the spectators to run, but they either did not hear him or thought they were safe behind a fence and an embankment. At the curve the car plunged off the road, down an embankment and through the fence among a group of on-lookers. John Brooks, of Port Washington, fell directly in front of the machine and was knocked twenty feet away. Two other bystanders were slightly injured. The car then plunged into a ditch. Its steering gear was badly wrecked. The injured boy may not recover. Both Wellschott and Colombo, his mechanic, were unconscious when picked up, but were soon revived.

## Ran Over Spectator.

Elliott Shepard ran into a man at Kurgo corner on the sixth lap and mangled both his legs so severely that amputation was necessary. The man later died. He is believed to have been Burt Gruner, of New Jersey. Word was received at Jersey that Tracy had run down two men at a point south of East Norwich. One man was reported to have had his leg broken. The extent of the other man's injuries was not mentioned.

The start and finish line of today's race was at a point near Westbury, on the Jericho turnpike. From here the course leads to the east in an almost straight line for two miles, when there is an abrupt turn to the left and north into the East Norwich road. This is followed for several miles to the village of East Norwich, which is but two miles from Oyster Bay, the summer home of President Roosevelt. At East Norwich there is a sharp turn again to the left and west, with a long winding run of more than five miles to Bull's Head, where begins a great dip to the south to avoid the village of Roslyn. This dip ends with the so-called "Hair-pin turn," near Old Westbury, which is about a mile and a half cross country from the finish grandstand.

## Some Delays.

Le Blon was slightly delayed near the five-mile post, being passed by several of the cars.

Tracy lost several minutes on first round by stopping to change his "non skidd" tires.

Tracy had more tire trouble on third round, putting on two tires at Jericho, losing seven minutes. He then proceeded with one flat tire.

He broke all records for the course on his fifth lap, making the 29.71 miles in 26:21. He was wildly cheered.

Wagner was first in the seventh lap, Lancia second and Jenatzy third. The races seemed to be between these three and Dursy. Times, seventh lap: Wagner, 19:33 2-5; Lancia, 20:43 4-5; Jenatzy, 20:07 1-5.

At 10:15 a. m. Lancia had taken the lead of the race at the completion of the eighth lap, but Wagner still had an advantage in the matter of elapsed time. Wagner and Jenatzy were not far behind Lancia in completing the eighth lap.

At 10:42 a. m. Wagner and Lancia had completed the ninth round, with only 29.71 miles to go.

### AMID GLITTER AND GLORY THE HORSE SHOW CLOSED

HUNDREDS OUT AGAIN LAST EVENING VIEWING THE FINAL EVENTS WHICH WERE EXCEEDINGLY INTERESTING—PROMOTERS CHARMED WITH THE GRAND SUCCESS OF THE ENTERTAINMENT THAT WILL BE REPEATED EACH YEAR HEREAFTER.

The grand annual horse show came to a close last evening in the presence of about 1,800 people who had gathered at the baseball park to view the final events. The entries and exhibits were of the same high class that has characterized the show ever since it started, and to a single person the closing affairs were pronounced as enjoyable as the opening features. The promoters are delighted at the successful culmination of affairs and desire to cheerfully thank everybody who helped make it the grand affair attained.

The first event of last evening was the best roadster, shown to runabout, mare or gelding. There were eighteen entries, and Clarence Sherill took first prize money of \$15, Gus Thompson second of \$10, and Claude Russell third of \$5.

The next affair was the grand musical drill participated in by about twenty four young ladies and gentlemen. Cups were the premiums, and Mr. Zack Bryant captured that for the best gentleman rider, Miss Henri Alcott for the best lady, and Mr. and Mrs. Rudy for the best couple.

Event No. 4 was the best pair of roadsters shown to runabout, and had entries of Wynn Tully, Gus Thompson, Owen Tully and Mr. Hailey of Murray. Gus Thompson got first money of \$25, Wynn Tully second of \$15, and Hailey third of \$10.

The best registered five-gaited saddle stallion was the next affair, and there were entries of Rev. Armstrong of this city, Mr. Boswell of Mayfield and Mr. Hailey of Murray. Boswell got first money of \$25, Hailey second of \$10, and Armstrong third of \$5.

The next event was for the light harness horse championship mare or gelding, for Western Kentucky, Southern Illinois and Western Tennessee. This event was scheduled for Thursday night, but pulled off last

night, and the entries consisted of Boswell of Mayfield, Clarence Sherill, Dick Williams, Johnson of Eastern Kentucky, Herbert Hawkins, Harris, James Glauber, Bob Leeper, Joe Friedman, Gus Thompson, Wheeler Campbell, and Carl Russell, latter of the Winstead Medicine company, and driving the animal "Basco" owned by B. W. Cornelison of the same medicine company. Mr. Russell captured first money of \$60 and the championship for the three states, while Boswell of Mayfield got second money of \$25, and Wheeler Campbell third money of \$15.

There was then pulled off the Friday night event that was postponed until last night, and which was the champion pair of harness horses, stallions mares or geldings. The entries were James Glauber, Wynn, Tully, Gus Thompson, Hume Ogilvie and Mr. Hailey. Wynn Tully got the championship and first prize of \$60, Mr. Hailey second prize of \$25, and Gus Thompson third prize of \$15.

Yesterday afternoon the stock exhibits took place and many specimens were entered, and prizes taken. Hon. James M. Lang was lucky in taking several trophies. He won for the best registered saddle mare and colt, his mare being "Anna Lee" while her colt was "Lightfoot." He then won with "Lightfoot" the prize for the best suckling colt. For the best saddle stallion he took the prize also, his animal being "Rebel Dare."

Last year the promoters of the show cleared only \$35, therefore this year they had to take their individual money to push things forward. The entertainment has been a huge success throughout and hundreds of dollars were made. This means they have sufficient in the treasury to give next year's event upon a scale double of what it was this fall.

# THE INFLUENCE OF FEMINITY

There is not one woman in a hundred but who has great influence over some man.

It may be a husband, it may be a sweetheart, but there the influence is working for good or bad, as the case may be.

The moment a man begins to care deeply for a woman he is swayed by her wishes and opinions. It is true that oftentimes he is unaware of just how much he is swayed, but nevertheless the fact remains—his views of things are largely colored by hers.

Just think of the responsibility you carry, girls. When a man loves you his whole mental attitude toward woman is measured by your standard.

You can make him worship and reverence woman or can make him despise her. You must be satisfied with none but the best in a man, and you must make the man you love realize that. Naturally, if you expect the best of him he has a right to demand the same of you.

Let him see that you prize honor and sobriety above all things, and if he really loves you he will strive to live up to your ideals.

You must practice what you preach; you must keep your own life pure and good and sweet if you wish your opinion to be of any value.

You must live so that no man has the least excuse for showing you ought save the most absolute respect.

Use your influence over the man who loves to the best of your ability. Encourage him to be sober, honest, industrious and economical.

Do not tempt him into spending more than he can afford. His love will prompt him to gratify you; every whim, and if those whims are many and extravagant he will not long be able to keep his head above water. Many a fine man has gone under simply through trying to live up to the demands of sweetheart or wife.

Let him see that you will not tolerate any jest or story that is not perfectly free from vulgarity.

To laugh at an intoxicated man is to condone his offense, and to lower yourself in the eyes of any man who sees you do it.

If you drink intoxicants, how can you hope to influence any man to give them up.

If your husband or sweetheart is a hard-working, industrious man, help him all you can by sympathy and encouragement.

Don't urge him to keep late hours, and don't feel insulted if he is sometimes too tired to pay much attention to you.

Above all, don't make him dissatisfied with his work unless you are quite sure he might do better.

Use your influence to help him climb higher up life's ladder, not to drag him down.

The power you hold is a wonderful thing if you wield it in the right direction.

## COUPLE ELOPED AND MARRIED ARE GORED BY BULL

Martinsburg, W. Va., Oct. 6.—Federick Cowan and his seventeen-year-old bride were gored to death by an angry bull in a meadow near this city late in the afternoon.

The young couple had just left the home of the preacher, who had married them after a sensational elopement, when the pretty bride's bright red dress attracted the bull, who charged down upon the flaming patch of color moving across his otherwise immaculately green feeding ground. Mr. and Mrs. Cowan had cut across the field to the railway station in their eagerness not to miss their train.

The young husband fought with the animal desperately in an effort to save his young bride and himself, but the horns of the enraged brute ripped into his side and hurled him to the ground, where he was trampled to death under the cruel hoofs.

The girl was too paralyzed by fright and borrow even to attempt to make her escape and was an easy victim. She was caught like a chip in the wind upon the already gory horns of the great animal, tossed into the air, caught again and finally, tossed into the air, caught again and hurled far over a barbed wire fence into the adjoining field. The young woman was so badly injured that she died within a few hours of the accident.

The bull is the property of John Hatfield, who lives near Richmond Falls, in Raleigh county. The young couple had eloped and indulged in a hurried marriage in opposition to the wishes of their parents.

# Some People Expect New Shoes to Hurt

And they are seldom disappointed. They buy that kind. The fact that a shoe should feel comfortable from the start is unknown to them because they have never felt the luxury of putting on a rightly made shoe.

They overlook the fact that a Hanan Shoe at its price gives the wear of two pairs of the kind they buy. They forget, also, that a

## LOWER RAILROAD FARES PAY.

Much More Profit in the Larger Business That Reduced Rates Bring.

When the New Haven Railroad Company reduced its passenger rate to 2 cents a mile the officials estimated that there would be a loss of \$700,000 a year in gross receipts, says the New York World. The reduction, which affects nine-tenths of the system, has been in operation several months, and instead of the predicted reduction there is an increase in gross earnings. Lower fares have given the company enough business to more than make good the lessened profit on each fare.

When the Michigan Central charter was repealed an a 2-cent rate was fixed by the legislature, the company brought suit again the state of Michigan for \$5,000,000. By the time the

## ONE LONE WOMAN SOLE OCCUPANT OF MEMORIAL HOME WORTH \$75,000

Kansas City, Mo., Oct. 6.—From among stately trees that shade an estate several acres in extent, rise the imposing gables of a magnificent \$75,000 building, known in Kansas City as the Margaret Klock Armour Memorial Home for Aged Couples. The home is almost a palace, and a matron and servants labor faithfully to supply the wants and make comfortable the solitary inmate who is mistress of all this grandeur.

It was not the original intention that the home should be the exclusive refuge of Mrs. Isadore Hatfield. This condition is due to peculiar regulations that were made for its maintenance by its founder.

The late S. B. Armour, founder of the big Armour packing plant in Kansas City, conceived the idea of establishing a permanent charity and the result was the home dedicated to his widow, who supplied a large additional sum to complete and furnish it. The dedication was the occasion for an impressive ceremony, but afterward the aged couples came not. This was due to a provision that couples must be not less than sixty-five years of age and that an entrance fee of \$600 must be paid.

Finally Isadore Hatfield and his wife bought an entrance to the home and reigned supreme until about a year ago, when Mr. Hatfield died. Since then no others have come to live in the big house among the trees.

"Yes, it's pretty and grand here," said Mrs. Hatfield, "and the matron and everybody are good to me; but, oh, I'm so lonely among all these empty rooms and in these big halls. I wish I had company here or I could go to some little place where it wouldn't be so kind of awesomely."

## GOOD TIME PLANNED.

For Kentucky Grand Lodge of Odd Fellows.

Harrodsburg, Ky., Oct. 6.—The I. O. O. F. grand lodge of Kentucky will be handsomely entertained in this city next week. The members of Montgomery Lodge, the host, have created an enthusiasm among the people generally, which assures a royal welcome and sure-enough Kentucky hospitality to the 500 or 600 delegates expected to arrive here next Monday. The committee on entertainment reports everything ready, and homes provided for all delegates and such ladies as may accompany them. Every mail brings letters increasing the number of delegates to be sent by the various lodges.

## NEW YORK HOTELS.

That Are Supported by the Rest of the Country.

(New York Letter Philadelphia Press.)

None of the great and new hotels, and especially none of those characterized by splendor of furnishing and presumably by high prices, has been in any financial embarrassment. All of them have made money and some of them have in the course of a few years brought fortunes to their owners and lessees. One of the lofty steel and iron constructed hotels in the vicinity of Central park was able to report to the company which owns and controls it a net profit for the first year after its opening of \$275,000. One of the other great hotels is understood to have netted nearly half a million in a single year. Another one of the hotels which must be listed among the new, altho in the swift modern development it should be named among the older of the new hotels in New York, made in some six years a fortune in excess of a million dollars for its lessee and manager.

But, after all, the most interesting and suggestive of all the features associated with the vast development of hotel property in New York city is the fact that they reflect not so much local prosperity as that of the entire country. The great number of transient guests who frequent these hotels represent the prosperity of the middle and even the far west and of the South. But for the riches that have come into these sections it would have been impossible to maintain profitably and would have been inexpedient to build any of these new hotels. The people of New York who occupy hotels live for the most part in the apartment houses.

In an earlier generation the cotton planter of the South, discounting some portion of his crop, took his family for a few weeks to New Orleans, so that the leading hotel of that city was for a time the center of the social life of the South. So, too, others of the Mississippi valley frequented for a brief time one or another of the hotels of St. Louis, and for many years the great planters of Kentucky, prosperous people of West Virginia and other parts of the South found delightful social recreation in the hotel life of Cincinnati. Furthermore, the cotton planters made summer ex-
